

Eva Cai

I'm Eva, a self-taught software developer. I've spent countless hours teaching myself the skills I need to become a successful developer. My journey has been challenging, but I'm proud of what I've accomplished so far. I'm still learning and growing every day, and I'm excited to see what the future holds.

Chinese

Experience

1/2024 - Present

Intern | CVIC Software Engineering Limited (Working Holiday in NZ)

- Developed proficiency in a suite of technologies including HTML, SCSS, JavaScript, React, Java, MySQL, and Spring Boot, underpinning my contributions to key development projects.
- Engaged actively in our dynamic development team, dedicating myself to building a front-end for a responsive landing page. Created a personal portfolio website from scratch.
- Demonstrated exceptional analytical skills and a natural aptitude for problem-solving by independently resolving complex code challenges, contributing to an enhanced user experience on web applications.

1/2021 - 3/2021

Project Coordinator I Biel Crystal Manufactory Ltd

- Analyzed and managed order data using company-specific software, enhancing my data processing and interpretation skills.
- Coordinated logistics for customer orders, involving meticulous attention to financial and operational details.

6/2018 - 3/2019

Media Operation I Wuhan Eighth Route Army Memorial Hall

- Supported the official WeChat account with graphic editing and content management, utilizing digital tools.
- Oversaw the writing and typesetting of public account articles, ensuring accuracy and clarity of information.
